

BMW Trackstar

The Ultimate
Driving Machine

A dark blue BMW 4 Series Trackstar is shown from a side profile, parked on a paved surface. The car is positioned in front of a building with a large, rusted metal sculpture hanging from the ceiling. A graphic of three concentric circles (two white, one green) is overlaid on the front of the car, centered on the headlight.

BMW TRACKSTAR

IF YOUR BMW DISAPPEARS, BMW TRACKSTAR WILL KEEP TRACK OF IT.

BMW S5 Trackstar*

The BMW S5 Trackstar has been introduced in line with the latest and highest insurance standards for vehicle tracking. Each unit comes with two Advance Driver Recognition (ADR) id tags, that automatically disarm the system when the tag is present in the vehicle, if the tag is not present when the vehicle is moved the S5 unit will alert the control centre of a potential theft. Utilizing state of the art technology such as GPS, GSM and an integrated motion detector in order to accurately locate your vehicle should it be stolen. When it has been established that your car has been stolen, the unit is activated and tracking can commence.

As with our other products, they are able to access the control centre 24hrs a day, 365 days a year in case of theft.

BMW Trackstar attracts full Thatcham S5 Accreditation.**

BMW Trackstar Advance*

BMW Trackstar S5 Advance utilises an electronic key-tag to provide an advanced level of theft prevention. Issued alongside the car key, the key-tag connects with the in-car system and recognises the driver as the owner of the car and must be present alongside the car key in the vehicle in order for the ignition to start.

BMW Trackstar Advance attracts full Thatcham S5 (previously Cat 6) Accreditation.**

BMW Trackstar 5*

The BMW Trackstar 5 unit operates in the same way as the BMW S5 Trackstar unit but incorporates the added benefit of a Driver Authentication Device. If the device is present the BMW Trackstar 5 unit can detect that the person driving the vehicle is authorised to do so, therefore in the event of a theft where the thief does not have the Driver Authentication Device, the Control Centre is alerted.

BMW Trackstar 5 attracts full Thatcham S5 (previously Cat 5) Accreditation.**

BMW Trackstar*

BMW Trackstar is a small covert electronic device installed in your vehicle which utilises state of the art technology such as GPS, GSM and an integrated motion detector in order to accurately locate your vehicle should it be stolen. When it has been established that your car has been stolen, the unit is activated and tracking can commence.

BMW Trackstar attracts full Thatcham S7 (previously Cat 6) Accreditation.**
