£399 - 3 Year Subscription

Trackstar S5 Advance

£675 inc. Fitting RRP
£189 - 1 Year Subscription
£450 - 3 Year Subscription

HOW DOES TRACKSTAR WORK?

Trackstar arms automatically once your ignition is switched off, and houses a full power backup so it works even if the vehicle's battery is disconnected.

If your vehicle is moved illegally, Trackstar's control centre will be notified and a constant signal will be sent by the device alerting to it's location, speed and direction using GPS positioning.

Control centre staff will then notify local police and update them regularly with your vehicle's location. For continuing peace of mind, the control centre is open 24 hours a day, 365 days a year.

Once the police have secured your vehicle it can be returned to you.

In the case of the Trackstar S5 Advance, the system comes with driver recognition tags which are attached to your keys. This means your Land Rover won't start unless the tags are present.
